

The Tasman – 27.79 Sq of Living

The Tasman is one of our new energy efficient homes. Giving you a lifestyle to be envied. With north to the dining room, the house will achieve a 5-star energy rating. Maximising the sunlight available to north facing windows in winter was a strong consideration in this design.

The butterfly gables enhance the design and aesthetic appeal of the house, the raked ceiling allows light into the rooms, enhancing the openness and space this home provides.

The gourmet kitchen has been located in the conservatory surrounded by windows with an abundance of light. This combined with the island bench, walk-in pantry and the surrounding space makes cooking a pleasure.

Enjoy summer entertaining from the spaciousness of the family room opening onto the patio and water feature. Relax with family and friends over a BBQ or enjoy a game of pool in the convenience of the rumpus room. Either way this is an exciting home with an abundance of space, style and character.
